

# Digital Get Down

\*NSYNC

Baby, baby, we get nasty, nasty, we can get freaky, deaky  
Baby, baby, we can do more than just talk  
'Cause I can hear ya, hear ya, and I can see ya, see ya  
Baby, baby, we can do all that we want  
We're getting nasty, nasty, we're getting freaky, freaky  
Digital, digital get down, just you and me  
You may be twenty thousand miles away, but I can see ya  
And baby, baby you can see me  
Digital, digital get down, just what we need  
If we can't get together naturally  
Then we can, we can get together on the digital screen  
Every time I'm sittin' home alone girl  
I can't wait to get you on the phone girl  
So, pick it up, babe  
I can see everything you do  
Bouncin' me from satellite to satellite  
I love the things you do for me so late tonight  
Turn me on, babe  
It's like I'm right there next to you, yeah  
Can we get connected?  
I need some love and affection, baby  
I'll call you on the phone  
I hope that I get through  
If you're in the mood and on the phone  
Here's what you do, leave a message  
You know the kind I like to get back to  
Digital, digital get down, just you and me  
You may be twenty thousand miles away, but I can see ya  
And baby, baby you can see me  
Digital, digital get down, just what we need  
If we can't get together naturally  
Then we can, we can get together on the digital screen, yeah  
I lose my mind just when you're speakin'  
I see you on the screen, I get to freakin'  
So, get down, babe  
And I'll get down for you  
I get so excited when I'm watchin', girl  
I can't wait to see you touch your body, girl  
It's just me and you  
So, we can do what we gotta do, yeah  
Can we get connected?  
I need some love and affection, baby  
I'll call you on the phone  
I hope that I get through  
If you're in the mood and on the phone  
Here's what you do, leave a message  
You know the kind I like to get back to  
Digital, digital get down, just you and me  
You may be twenty thousand miles away, but I can see ya  
And baby, baby you can see me  
Digital, digital get down, just what we need  
If we can't get together naturally  
Then we can, we can get together on the digital screen, yeah  
Digital, digital, digital, digital get down, get down

Digital digital digital digital get down, get down  
Baby, baby we can do more than just talk  
'Cause I can hear ya, hear ya, and I can see ya, see ya  
Baby, baby we can do all that we want  
We're getting nasty, nasty, we're getting freaky, freaky  
Baby, baby we can do more than just talk  
'Cause I can hear ya, hear ya, and I can see ya, see ya  
Baby, baby we can do all that we want  
We're getting nasty, nasty, we're getting digital  
Digital, digital get down, just you and me  
You may be twenty thousand miles away, but I can see ya  
And baby, baby you can see me  
Digital, digital get down, just what we need  
If we can't get together naturally  
Then we can, we can get together on the digital screen, yeah  
Digital, digital get down, just you and me  
You may be twenty thousand miles away, but I can see ya  
And baby, baby you can see me  
Digital, digital get down, just what we need  
If we can't get together naturally  
Then we can, we can get together on the digital screen, yeah  
Digital, digital get down, get down, just what we  
need
