

# Private

## Olly Murs

It's been a long night  
And we've both had a bit too much  
I can see in your eyes  
You're in the mood I know you're wanting some  
You're trying to kiss me and touch me  
You're all up in my face  
But we're in public, so stop it, cause I don't do PDA  
I know you know me but there's no need  
No need to make a scene  
We gotta cover it up, gotta get up to get down  
If you know what I mean  
Keep it private baby  
Don't need no people watching  
Us now maybe  
Yeah, we should keep it private  
Believe I'm ready  
But we should keep it on the low  
Low oh oh oh Tryna be honest  
It's just that I've been through this all before  
You already know I want it  
So let me do the things you like behind closed doors  
Behind closed doors You're trying to kiss me and touch me  
You're all up in my face  
But we're in public, so stop it, cause I don't do PDA  
I know you know me but there's no need  
No need to make a scene  
We gotta cover it up, gotta get up to get down  
If you know what I mean  
Keep it private baby  
Don't need no people watching  
Us now maybe  
Yeah, we should keep it private  
Believe I'm ready  
But don't tell anybody  
No no no  
We should keep it private baby  
Don't need no people watching  
Us now maybe  
Yeah, we should keep it private  
Believe I'm ready

But we should keep it on the low oh, low oh ohLet's keep it on the low0 (low, low)

Let's keep it on the low, low, low

Let's keep it on the low (low, low)

Lets keep it on the low (low oh oh)

Let's keep it on the low

Let's keep it on the low

Ain't nobody gotta know

Let's keep it on the low

You know, you know, I know, I know babyWe should keep it private baby

Don't need no people watching

Us now maybe

Yeah, we should keep it private

Believe I'm ready

But don't tell anybody no no oh oh

We should keep it private baby

Don't need no people watching

Us now maybe

Yeah, we should keep it private

Believe I'm ready

But we should keep it on the low, oh, low oh oh oh
