Parachute

Element Eighty

[Chorus 1x]
How far will you go for me til' you break
I know you would wait for me all again
How long would you meet for me for everything
Too do whatever for something more than this.

Inside of me
All my life I've waited for you to find me
Taken from me and never knew or known just how it feels to meet you.

[Chorus 2 1x]

Burning in me
All my life I've waited to break the silence
Expectations, and willI ever know just howit feels to forget.

[Chorus 3 1x]

Inside, hold my head high
Now you understand
And now I am prayin'
Those two ogether will never understand
Work infront of me
All this time I.

[Repeat 2x]
Never could see
It's right infront of me.

[Chorus 4 1x]

Work infront of me.
