

We Save the Galaxy

NerdOut

Nerd Out - We save the galaxy

Take some smugglers and thieves, crooks and bandits
Not your typical team but don't panic
Trouble's following us like a magnet
Oh-oooh ohoooh

Yeah, you think that your tough
But we're better
Save the galaxy once
There's no pressure
Wouldn't cross paths with us
If you're clever
Oh-oooh ohoooh

Refrain:

Back at it again
Fighting whatever they choose
We're causing Mayhem
'Cause we don't live by the rules
So strap yourself in
We never learned how to lose
You know what we do
We save the galaxy

Back at it again
We got the moves and the tunes
A team of misfits, a little tree and raccoon
So strap yourself in
We never learned how to lose
You know what we do
We save the galaxy
We save the galaxy

You can bring all your guns
But mine's bigger
Run as fast as you want
I'll be quicker
This fight's already won
I'm the winner

Oh-oooh ohoooh

Striking deep in the hearts of all evil
We're just doing our part for the people
When we stand together there's no equal
Oh-oooh ohoooh

Refrain:

Back at it again
Fighting whatever they choose
We're causing Mayhem
'Cause we don't live by the rules
So strap yourself in
We never learned how to lose
You know what we do
We save the galaxy

Back at it again
We got the moves and the tunes
A team of misfits, a little tree and raccoon
So strap yourself in
We never learned how to lose
You know what we do
We save the galaxy
We save the galaxy
We save the galaxy

(Playing in the background:
Take some smugglers and thieves, crooks and bandits
Not your typical team but don't panic
Trouble's following us like a magnet
Oh-oooh ohoooh)

We save the galaxy
We save the galaxy
