

# Teardrops Will Kiss The Morning Dew

[Alison Krauss](#)

(paul craft/rocky top music, bmi)When time was young we walked the roads together  
When love was sweet I meant the world to you  
Now comes the sun we'll say goodbye forever  
And teardrops will kiss the morning dewTake me and make me your lover one more time  
Close in your arms as before  
'til o'er your shoulder the early morning shines  
Then I'll leave you and grieve you no moreWhen time was young we walked the roads together  
When love was sweet I meant the world to you  
Now comes the sun we'll say goodbye forever  
And teardrops will kiss the morning dewDaises need sunshine and roses need rain  
So it was all meant to be  
A wild bird needs wings, free to take to the wind  
And so it was meant for you and meWhen time was young we walked the roads together  
When love was sweet I meant the world to you  
Now comes the sun we'll say goodbye forever  
And teardrops will kiss the morning dewTeardrops will kiss the morning dew
