Travel To Romantis

Ace Of Base

Funny how everything changes for me
Memories take me away
Each time I open the door to my room
Where I must stay in all day
I don't want to be here, I'm much too tired
So I close my eyes and snap, I'm with you
We are on vacation, you and me together
Lying in the sunshine
I travel to Romantis
I travel to Romantis
Where nothin' but the blue skies
Will tell me that the time flies
I travel to Rromantis
Everytime I think of you
You've given me my life back
I travel to Romantis
One day I will give you myself in a ring
Bounded by law and by heart
It's you and me against the world
That is the way it should be
I don't want to be here, I'm much too tired
So I close my eyes and snap, I'm with you
We are on vacation, you and me together
Lyin' in the sunshine
I travel to Romantis
I travel to Romantis
Where nothin' but the blue skies
Will tell me that the time flies
I travel to Romantis
Everytime I think of you
You've given me my life back
I travel to Romantis
You are the best
You are the best that has happened to me
You are the best
You are the best that has happened to me
Give me my life back
You are the best that has happened to me
Please God, let it be

I travel to Romantis
I travel to Romantis
Where nothin' but the blue skies
Will tell me that the time flies
I travel to Romantis
Everytime I think of you
You've given me my life back
I travel to Romantis
I travel to Romantis
I travel to Romantis
Where nothin' but the blue skies
Will tell me that the time flies
