A Part Of Me

October Fall

So what are we looking for
When we've got all we need?
And what are we sleeping for
When we've got nothing to dream for?So where are we looking to
When inside empty rooms?
Will you believe the invisible
To fill the faith in time we lose?I'm having trouble breathing
Please come and rescue me
I can fill something leaving
That was a part of me
A part of meAnd it's me that you break
But you know I can take it
No matter when it breaks
You'll still be a part of meSo what are we waiting for
When all our friends are here?
And what are we changing for
When we liked who we were before?So where are we looking to
When inside empty rooms?
Will you believe in this part of me
And wear me like a new tattoo?I'm having trouble breathing
It's too late to rescue me
I can fill something leaving
That was a part of me
A part of meAnd it's me that you break
But you know I can take it
No matter when it breaks
You'll still be a part of meI can see what is happening
It's alright to be afraid
I can see what is happening
It's too late for me to be savedSo what are we looking for
We've got all we need?
And what are we sleeping for
We've got nothing to dream for?And it's me that you break
But you know, I can take it
No matter when it breaks
You'll still be a part of meI can see what is happening
It's alright to be afraid
I can see what is happening
