Should I Be Damned

Backyard Babies

She down and dirty
She everything a mother wouldn like to see
Don you ever come back home to meLosing my pride, losing my faith
Losing everything that I used to have
Hell dance around you babyCould I be such a fool myself
Could I, should IShould I, should I be damned
Baby, don slap my face again
Little honey, should I be so damnedMan keeps talkin?what I should do
Won get the fuck out, I don care about you
I can never come back down againLosing my love, losing my sex
I leave you, honey, lying on the bed at night
Hell dance around you babyCould I be such a fool myselfShould I, should I be damned
Baby, don slap my face again
Little honey, should I be so damnedShould I, should I be damned
Should I be damnedWell, could I be such...I can do what you want
I can talk like the devil in the glass
You don mean nothing
You don mean nothing to meI can believe what I saw in your eyes
When you cried little sister
People might come and people might go
But do you really wanna be a devils toy againShould I, should I be damned
Baby, don slap my face again
Little honey, should I be so damnedShould I, should I be damned
Should I, should I be damned
Should I, should I be damnedShould I be damned
