

Secrets

Clinton Washington

Chorus

Tellin all your secrets,
Telling all your lies
I don't want to stay too long
With your whisper tone
I just wanna be around
With your whisper tone Oh you see I wanna hear all about it
Oh you know I'm lucky I wanna shout it
Talking into the late night hours
Waking up with the early morning showers You're putting on quite a show Just give it all away
Just give it all to me
I'm weak in my knees
When you speak that speak Chorus
Tellin all your secrets,
Telling all your lies
I don't want to stay too long
With your whisper tone
I just wanna be around
With your whisper tone Oh you got me on my knees
Oh you got me begging please
Begging please for another piece
Showing me some sympathy You're putting on quite a show Just give it all away
Just give it all to me
I'm weak in my knees
When you speak that speak Chorus
Tellin all your secrets,
Telling all your lies
I don't want to stay too long
With your whisper tone
I just wanna be around
With your whisper tone
