Tonight

Kem

Every life needs another life
And every heart, another
And yours, just might, need mine?.. tonight

Every day is a new day
And every hour is ours to share
And every heart needs another heart
And yours just might need mine tonight?baby, baby
Yours might need mine, tonight, baby.
Every one has heartache

And everyone gets lonely
And every love needs another love
And yours just might need mine tonight?
Yours just might need mine tonight- ohhhh
Everyone needs someone to talk to
Everyone needs, needs someone to love
Everyone life needs another life
And yours just might need mine tonight?.
Yours just might
