

# Arms Of A Stranger

## 12 Stones

I came home early to see you  
Couldn't wait to hold you  
I've been away for so long now  
But as I walked through the doorway  
My heart was shattered  
To find that you're not alone  
When will I break into pieces?  
It's your mistake, I finally see that  
Everything I thought was you was a lie  
Now you left love dying  
It's in the arms of a stranger  
The days just seem so much longer  
Now that I'm without you  
It never seems to get better  
I'll try to hold it together  
And I can't wait for  
The day you fade from my memory, yeah  
When will I break into pieces?  
It's your mistake, I finally see that  
Everything I thought was you was a lie  
Now you left love dying  
It's in the arms of a stranger  
  
In the arms of a stranger  
In the arms of a stranger  
When will I break into pieces?  
It's your mistake, I finally see that  
Everything I thought was you was a lie  
Now you left love dying  
It's in the arms of a stranger, yeah  
When will I break into pieces  
It's your mistake, I finally see that  
Everything I thought was you was a lie  
Now you left love dying  
It's in the arms of a stranger  
When will I break  
(In the arms of a stranger)  
It's your mistake  
Everything I thought was you was a lie

Now you left love dying  
In the arms of a stranger  
I came home early to see you  
Couldn't wait to hold you  
You're in the arms of a stranger
