The Hills Have Eyes

Stratovarius

Come with me my child
It's gonna take a little while
To teach you the knowledge
Of the ancient rhymeFly with me tonight
Through the cosmic sea
It's a mysteryFrom the thirst for life
You will never keep away
Pleasure of one man
Makes another man a preyFly with me tonight
Through the cosmic sea
It's a mysteryHills have eyes
Mind your step, you'll better be wise
Or you never rise againHills have eyes
Never forgive nor compromise
You fail in vainHills have eyes
Mind your step, you'll better be wise
Or you never rise againHills have eyes
Never forgive nor compromise
You fail in vain
