

Walk Away

[Amanda Wilkinson](#)

You used to say that we were cut from the same cloth
Ticking on the same clock, something fine
You used to say no fire burned as hot as us
Now you're saying goodbye You always said that we were beautiful and timeless
We were one of a kind and we were more than right
I heard you say I was the only one who really moved you
Now you're saying goodbye Walk away now, baby walk away
Walk away now, if you've changed your mind
Walk away now, baby walk away
Walk away if it was all a lie You used to say we were the ones who would make it
Yeah, the ones dedicated meant to share this life
I heard you say a thousand times that you would always love me
Now you're saying goodbye Walk away now, baby walk away
Pretend you never said that you were mine
Walk away now, baby walk away
Walk away if it was all a lie, yeah, yeah But you can't tell me all those words you told me
Were anything but something true Didn't you say that we were cut from the same cloth
Ticking on the same clock, something fine
Didn't you say no fire ever burned as hot as us
Now you're saying goodbye Walk away now, baby walk away
Pretend you never said that you were mine
Walk away now, baby walk away, yeah
Walk away if you've changed your mind Walk away now, baby walk away
Walk away if it was all a lie
