

## Chris Duarte Group

Though, it took me by surprise  
One by one, I realized  
There was somethin', I could do  
I lost my way, that's what she said  
Back to the 101  
If we don't know, somewhere to go  
Back to the 101  
I never said, to feel relaxed  
I never said, to love me back  
What was I next to you?  
And in my mind, it all goes black  
Lost control of what I had  
All my thoughts, left one by one  
I lost my way, that's what she said  
Back to the 101  
Back to the one, another one  
Back to the 101  
I count the one  
I count the one  
I count the 101  
I count the one  
I count the one  
I count the 101  
I know  
(I count the one)  
I lost  
(I count the one)  
My way  
(I count the 101)  
This time  
(I count the one)  
We'll find  
(I count the one)  
A place  
(I count the 101)  
I know  
(I count the one)  
I lost  
(I count the one)

My way  
(I count the 101)  
This time  
(I count the one)  
We'll find  
(I count the one)  
A place  
(I count the 101)
