

Where I Stand

Ashanti

Tell me where I stand?
Are we gonna be hand in hand
Or did I just fall in love with a friend?
Tell me where I stand?
We ain't gotta move it nowhere
I just gotta know where I am You gotta know what I'm feeling when I see you, babe
It's been a while we been dealing with each other this way
And I'm always here to wipe your tears
Lying by your side if they turning on you
I wanna be your all is what I wanna do
I'm giving all I can, you gotta let me know where I stand Tell me where I stand?
Are we gonna be hand in hand
Or did I just fall in love with a friend?
Tell me where I stand?
We ain't gotta move it nowhere
I just gotta know where I am Tell me where I stand?
Are we gonna be hand in hand
Or did I just fall in love with a friend?
Tell me where I stand?
We ain't gotta move it nowhere
I just gotta know where I am I always wanna see you smiling back at me
And I've been thinking this is where I wanna be
If I can make it so you'll never hurt again
I'll do whatever, say whatever give the best I can Should I have another waiting on the side?
Should I have another that I see at night?
I wanna be with you and this is what I planned
But I gotta know where I stand Tell me where I stand?
Are we gonna be hand in hand
Or did I just fall in love with a friend?
Tell me where I stand?
We ain't gotta move it nowhere
I just gotta know where I am Tell me where I stand?
Are we gonna be hand in hand
Or did I just fall in love with a friend?
Tell me where I stand?
We ain't gotta move it nowhere
I just gotta know where I am Tell me should I care if you stay out all night?
Tell me should I care if you go out with another girl?
And if you give a damn where I'm at

And if you give a damn where I am
Then I gotta know where I standTell me where I stand?
Are we gonna be hand in hand
Or did I just fall in love with a friend?
Tell me where I stand?
We ain't gotta move it nowhere
I just gotta know where I amTell me where I stand?
Are we gonna be hand in hand
Or did I just fall in love with a friend?
Tell me where I stand?
We ain't gotta move it nowhere
I just gotta know where I amTell me where I stand?
Are we gonna be hand in hand
Or did I just fall in love with a friend?
Tell me where I stand?
We ain't gotta move it nowhere
I just gotta know where I amTell me where I stand?
Are we gonna be hand in hand
Or did I just fall in love with a friend?
Tell me where I stand?
We ain't gotta move it nowhere
I just gotta know where I am
