

# Spliff and My Lady

## Jah Roots

said baby i would like it if we could just stay at home  
not worry bout a thing, girl not even put your make-up on  
oh no problems, no bills, no calls, nothing goin wrong  
just you and me makin sweet love all night long

chorus:

cause my girl she burns with me now everyday  
yo gives me love love love in every way  
takes care of my children without a complaint  
and i know i'll be with her till the end of my

wake me in the morning yes baby just to give me a lite  
said nothing like a spliff and my lady at my side  
cool cool wind on my face and it feels so nice  
never wanna leave this feeling cause it feels so right

(chorus)

when we wake up girl you hold me close now this will take up  
the whole afternoon well i dont care cause you're the greatest  
in me world there is no other girl that ever take ya  
outta me life i say there is no one that could replace ya  
i must say that, any bad i ever said i take back  
i'm trying to be a better man but know i am not perfect  
still i can try deep down inside to not just let these feelings hide  
when we're trying to build a better kind of life for your and i

(chorus)

any time you're ready girl i'll be right on time  
and i will roll up two spliffs so that we both get high  
spend some quality time together just enjoying this life  
thinkin about the future together how we pass through the time  
when we sit back and toke i like to watch the smoke rise  
theres no need to worry about the troubles- leave them outside  
if i say i didn't love you girl well that'd be a lie  
what i'm really trying to say is girl i'm glad that youre mine
