Drown

Ja Rule

Please dont let me drown drown drown(Im so cold)
Please dont let me drown drown drown(Dont let me drown)
Please dont let me drown drown drown(Im so cold)
Please dont let me
Please dont let meYes sir
They fought meIm going in the downer shape
Into the darker days
Please dont let me drown (drown)
All life was fatally
The burst of your judgment day
Please dont let me drown
(Don't let me, don't let me, don't let me, don't let me)Drown drown drown
Lord let me take it both water like the French quarter
Im so walker now
Im overlooking the ocean
From the deck of the yacht the views gorgeous
They have the shark in the waters
But is the few whos among us
Nigger, they wanna bite like piranha
I overflow near DiCaprio
Im top ten bigger than life the aura
If this ship sink nigger Im gonna walk on water
Gigantic but Jesus Im of the Christian manic
How do I manage? To be above average and not ever again
To be the one to dive in knowing I cant swim
For me to go under not breathing
Im drowningIm going in the downer shape
Into the darker days
Please dont let me drown (drown)
All life was fatally
The burst of your judgment day
Please dont let me drown
(Don't let me, don't let me, don't let me, don't let me)Pray for me 'cause I tested positive
For being the shit now niggers wont touch me
And Im allergic to broke niggers, trust me
Independent, been in the blood since a young gun
So Im thinking there aint no cure for my illness
And the diagnose is just something I could live with
'Cause Id have make it rain on bitches, storm on niggers

Cash flow like rivers (Please dont let me drown)
The drifting it wasnt enough for me
To be in the deepest of waters, to feel like Im snorkeling
Off shore and this so reassuring
That Im still sick, in need of a donor
'Cause Im heartless, so I dive in
No life vest, knowing I cant swim
So if I go under and Im breathing
Am I drowning?Im going in the downer shape
Into the darker days
Please dont let me drown (drown)
All life was fatally
The burst of your judgment day
Please dont let me drown
(Don't let me, don't let me, don't let me, don't let me)This is the story of a girl (pray)
Who cried a river and drowned the whole world (they fought me)
I told her cry me a river, little mama dont give up
Daddys here to deliver, the world is cold
So them tears you can tie them up
Just dont wanna let em running down your face
Baby the world is frozen
I told her if she shared it with me then itd be ours
Like anything you maw
How can you give and drown?
Under water I cant hear a sound but I
See the rain dropping like tears from God am I
Mothers telling me that its a sign of wealth
When I dont think the Lord is too fond of her
But theres gotta be a reason
Im not drowning, right?Im going in the downer shape
Into the darker days (kill my lights in here baby)
Please dont let me drown (drown)
All life was fatally(its black out now)
The burst of your judgment day
Please dont let me drown
(Don't let me, don't let me, don't let me, don't let me)
Please dont let me drown
(Don't let me, don't let me, don't let me, don't let me)
