Down South

Toxic Lab Rats

As we crashed out from this place
With no meaning, it was just fun
I feel mean, I feel dumb, we were happy
This will last until we say

We were dirty we were mean and nothing in between
Far from our home and our loved ones at heart
I canâ€™t read my own mind but sure can mess things up
Left my quiet party and I headed down south

With a handful of dreams I met this fucked up bunch
We painted that town red for crying out loud
We were pissed, we were pissed,
We were pissed once again

As we crashed out from this place
With no meaning, it was just fun
I feel mean, I feel dumb, we were happy
This will last until we say
I feel clean, I feel numb, we were slutty
This will last until weâ€™re sane
As we walk down our memory lane

We were dirty we were mean and nothing in between
Far from our home and our loved ones at heart
I canâ€™t read my own mind but sure can mess things up
Left my quiet party and I headed down south

With a handful of dollars I met this fucked up crowd
We burned that town for crying out loud
We were pissed, we were pissed,
We were pissed once again

We were dirty we were mean and nothing in between
Far from our home and our loved ones at heart
I canâ€™t read my own mind but sure can mess things up
Left my quiet party and I headed down south
We were pissed, we were pissed,
We were pissed once again
