

Elva (It's Alright)

Unwritten Law

I can feel the world upon my back
I got sixteen people breathing down my neck
And it's kinda hard to keep your head afloat
When the rain won't stop, your face is soaked but I'm I'm alright, alright
I'm alright, alright So just hang on 'cause I, I won't be long
And just sing that song to me
Goes I'm in love with you in love with me
'Cause I'm in love with you in love with me I can feel your breath upon my neck
One last caress I'm a nervous wreck
And it's kinda hard to keep your head afloat
When the rain won't stop, your face is soaked but I'm I'm alright, alright
I'm alright, alright So just hang on 'cause I, I won't be long
And just sing that song to me
Goes I'm in love with you in love with me
'Cause I'm in love with you in love with me I'm alright, alright
I'm alright, alright So just hang on 'cause I, I won't be long
And just sing that song to me
Goes I'm in love with you in love with me
'Cause I'm in love with you in love with me Yeah, I'm in love with you in love with me now
Yeah, I'm in love with you in love with me
