

# Promises

## Barbra Streisand

Here by my side are you close enough  
To take me to your paradise  
Or am I going down to my loneliness?  
Could you be loving me more or less? Do you know? Are you ready for the feeling?  
Can you learn to grow?  
Out in a world of tears we were hanging on  
We come together we find the sun You all over me, all over  
You're the light  
I am the love, don't let me die away  
(Die away) I am forever, we are born to make  
Promises to be there  
(Promises to be there)  
Promises to be there Life where the few may not ever find a Heaven  
I could be with you  
Out in a world where nights, they don't ever end  
We've got each other my love, my life, my friend You all over me, all over  
You're the light  
I am the love, don't let me die away  
(Die away) I am forever we are born to make  
Promises to love me  
(Promises to love me)  
Promises to love me Out in a world where nights  
They don't ever, ever end  
We've got each other my love  
My life, my friend You all over me, all over  
You're the light  
I am the love don't let me die away  
(Die away) I am forever, we are born to make  
Promises to be there  
(Promises to be there)  
Promises to be there Die away I am the love, don't let me die away  
I am forever, we are born to make  
Promises  
(Promises to be there) Promises  
(Promises to be there)  
Promises  
(Promises to be there) Promises  
(Promises to be there) Promises to be there  
(Promises to be there)

Promises Promises to love me  
(Promises to be there)  
Promises (Promises to be there)  
Promises  
(Promises to be there)  
(Promises to be there)
