

Save Me

Status Quo

Baby. Baby, I've been watching you
Maybe, lately, you've been watching me too
Save me, save me from myself
Maybe looking at someone else

Something tells me something's missing for you
Someone told me you done told on me too
Save me, save me from myself
Baby, keep it to yourself

Oh, I don't know where I'm going
Oh no, I don't much care and I don't know where I'm going

Lonely, lonely, I'll be thinking 'bout you
Only, lonely I'll be missing you too
Save me, save me from these tears
Baby, you don't even hear anymore
