

# Love Blind

## Martha Reeves And The Vandellas

Love blind and you're on my mind  
Even when I'm walking the dog  
I'm carefree like this melody  
Hope this doesn't take us too long Baby, turn me on  
You put fire in me every night  
I need the drug you got to give  
Keep it like that 'cause it's positive Can't leave you to feel alone  
Step in the car, let me take you home  
Slide right up and make you bend  
Now we did it once, can we do it again? Baby, you've got me hanging off the streetlights  
You've got me singing with the Bluebirds  
In the sky above  
I think I'm in love Step to me, angel eyes  
You got the shake and I got the fries  
All black leather like a disco bitch  
Five feet nine with your ruby lips You made me love blind  
And I can't get you off my mind  
Mama said, stay away from girls like you  
Turn out the lights, I know what to do Baby, rock the floor  
(You gonna rock the floor tonight)  
Baby, rock the floor  
Baby, rock the floor  
Baby, rock the floor Baby, rock the floor  
(You gonna rock the floor tonight)  
Baby, rock the floor  
Baby, rock the floor  
Rock the floor tonight You've got me hanging off the streetlights  
You've got me singing with the Bluebirds  
In the sky above  
I think I'm in love And you've got me dancing on the ceiling  
You've got me thinking about the whole world  
It revolves around you  
So what can I do? What to do? Baby, rock the floor  
Baby, rock the floor  
Baby, rock the floor  
Kiss me twice and I need some more Yeah, you're gonna rock the floor tonight You've got me hanging off the  
streetlights  
You've got me climbing up the wall  
Everything you do reminds me of the good times

Woah, baby, you know you made me so love blind Yeah, you're gonna rock the floor tonight

Yeah, you're gonna rock the floor tonight

Yeah, you're gonna rock the floor tonight

Yeah, you're gonna rock the floor tonight, tonight
