Where Do I Go with Me

The Common Linnets

I could give it up and leave you any given moment in time
If I should walk away this evening, see if I can get you off my mind
If I should break my promises and answer to a feeling just to see
It would leave me with one question, Lord
Where do I go with meI will follow all the little signs and whispers from your dark and tender touch
I will drink the water from your well
But I guess that it could drown me just as much
and you could be a memory and I could dream of all that I could be
But It ain't hard to figure out my love
Where do I go with meWhere do I go with me
Is there a place for me to fall apart
You got me down on my knees
Where do I go with meWhere do I go with me
Is there a place for me to fall apart
You got my down on my knees
Where do I go with me
