Living Wreck

Deep Purple

You came along for a weekend
But you only stayed for one night
You took off your hair, you pulled out your teeth
Yeah, I almost died of fright
You'd better do something
For your own sake
Yeah, it's a shame
Ah, you know you're a living wreck
You said you were a virgin
Full of promise and mystery, yeah
But I knew that you would bring me down
'Cause everyone calls you Big G
You'd better do something
For your own sake
Yeah, it's a shame
Ah, you know you're a living wreck
You said you're gonna love me
You said you're gonna set me free
But I knew that you would bring me down
And, and cause me misery, yeah
You'd better do something
For your own sake
Yeah, it's a shame
Ah, you know you're a living wreck
