## SveTec

Fire, the burning path  
Downstroy the weak minds  
The weak minds rising nature's demise  
Enslave system creation  
Chorus:  
Everywhere is bloodshed  
Wasteland bloodshed  
Everywhere is bloodshed  
Wasteland bloodshed  
Bloodshed wasteland  
Bloodshed wasteland  
Bloodshed  
Life, ravage skullduggery  
Rage, dethrone the enemy  
Die treacherous leprosy  
Scorn the self inflict  
Chorus:  
Everywhere is bloodshed  
Wasteland bloodshed  
Everywhere is bloodshed  
Wasteland bloodshed  
Bloodshed wasteland  
Bloodshed wasteland  
Bloodshed  
This is my redemption  
Strangling superstitions  
This is my conception  
Condemned for eternity  
Blood of the lamb touching the empty void  
Slowly eats my soul  
Drag down the black hole  
Join the cult of dark hope  
Swarm of deadly locusts  
Beware of the prophecy  
Rulers of reality
