Private Party

Michelle Williams

Yeah, yeah, yeahTell me if it's a crime, maybe I'm wrong I'm out of my mind, when I see what I want Come and get it, I'm grown

Don't forget it and I don't mind showing him

I'm so wide open tonightBaby, tonight we can spend some quality time

You'll tell me secrets, baby, I'll tell you mine

You can rest your feet and unwind

For a minute, be mine, for a minuteYou're so invited to the party

I will cater to you

Make you feel like a man

I can, so come on If you give me your sight, I'll make a move

'Cos I handle just fine, I wanna see what I want, boy

Come and get it, I'm grown, don't forget it

I'll put it all on the table, I'm willing and able tonightBaby, tonight we can spend some quality time

You'll tell me secrets, baby, I'll tell you mine

You can rest your feet and unwind

For a minute, be mine, for a minute You're so invited to the party

I will cater to you

Make you feel like a man

I can, come on I'll do anything I'm not supposed to

And I just hope you're ready

When I approach you, here's your invitation You're so invited to the party

I will cater to you

Make you feel like a man

I can, come on Yeah, yeah, yeah

Yeah, yeah, yeahYou're so invited to the party

I will cater to you

Make you feel like a man

I can, come on You're so invited to the party

I will cater to you

Make you feel like a man

I can, come on
