

# Touche (Feat. Lee Richards & J

## Godsmack

Find a way  
A way to be  
You're looking down again  
Just let it be  
And I'd only do for you what you'd do for me  
And I only would do for you what you'd do for me Wastin' time like it was free  
Will you ever find where you'll be  
And I'd only do for you what you'd do for me  
And I only would do for you what you'd do for me  
And I only would do for you what you'd do for me yeah  
And I only would do for you what you'd do for me Oh don't look back just to lean on me  
Oh it's taken the life out of me  
It's not like you'd know  
You've never been close enough  
Closer than you've been to me  
It's not what you say  
It's just in the way  
You push me away And I only would do for you what you'd do for me yeah  
And I only would do for you what you'd do for me yeah  
And I only would do for you what you'd do for me  
And I only would do for you what you'd do for me
