Strange

Natural

Did you think that I would run
Did you think that I would be the one
Or did you think at all,it's your call
You were right and I was wrong
Sounds to me like the same old song
Can you hear me know,won't you take a bow
Fly...where it never rains
So high...into the milky way
Goodbye...is all I have to say
Baby, you don't,know me
I see through you
Love is,more than
Hollywood stars and an ocean view
All I ever wanted is just to be with you
Is that really so strange
You got time in your pocket but your clock's runnin' out
And it's time baby I headed south
For some apple pie,I won't lie
Purple skies and pearly white smiles
Everybody's sayin' you got style
Have a toast on me,hope you find your dreams

Fly...where it never rains
So high...into the milky way
Goodbye...is all I have to say
Baby, you don't,know me
I see through you
Love is,more than
Hollywood stars and an ocean view
All I ever wanted is just to be with you
Is that really so strange
I gave you everything,all my love
Baby,that was never good enough
You bought your ticket to the stars
But somewhere you got off on mars
In your world I just can't breathe c'est la vie
Baby, you don't,know me
I see through you
Love is,more than

Hollywood stars and an ocean view
All I ever wanted is just to be with you
Is that really so strange
