Welcome

Clinic

You see your sun is gentle, see the Sunday clothes
And the new beginnings just beginning to unfold
Best of all the summers warm, see our lady with her shawl
Come and come forever, could you go, go, go for more?Now your welcome with us
Now your welcome with us more
Now your welcome with us more
And who would you disintegrate for?And see us in the kitchen, see us on the floor
And the new beginnings that are beginning at the door
Best of all the summers warm, see our lady with her shawl
Come and come forever, could you go, go, go for more?Now your welcome with us
Now your welcome with us more
Now your welcome with us more
And who could you disintegrate for?Get it all in the open, get it out of your cloak
And the new beginnings just beginning to unfold
Best of all the summers warm, see our lady in her shawl
Come and come forever could you go, go, go for moreNow your welcome with us
Now your welcome with us more
Now your welcome with us more
And who could you?
And who would you disintegrate for?Disintegrate for?
Disintegrate for?
Disintegrate for?
