Trust Me

Keith Sweat

So you don't trust me no more, huh?
Never made you mad
No, I didn't girl
Never made you sad
So what I ever did?
Girl I'm here with you
Sharin' love and
Dreams with you
And I promise my love for life
Somebody told you, somebody saw me
Said that I've been messin' round, runnin' the street
Kept it real with you so keep it real with me
See there ain't no love if you don't trust me
See after five long years
I would think you would know better
That they ain't gonna stop
Tryin' to break us up
Listen girl, see your friends they're lying
There just mad your my wife
And there only, only tryin' to take your space
It ain't gonna happen
Somebody told you, somebody saw me
Said that I've been messin' round, runnin' the street
Kept it real with you so keep it real with me
See there ain't no love if you don't trust me
Tell me girl
Who was there for you baby, when there was no one around?
Who had no time then, when there was no love to be found?
Tell me baby, why you keep on doubtin' me?
Mama used to tell me
"Misery loves company"
Now that I'm grown
I've seen what she meant
Why is it people hate to see things when it's right?
And for some reason they're comin' tryin' to mess up their life
If this can't be theirs
It ain't gonna happen
Somebody told you, somebody saw me
Said that I've been messin' round, runnin' the street

Kept it real with you so keep it real with me
See there ain't no love if you don't trust me
Somebody told you, somebody saw me
Said that I've been messin' round, runnin' the street
Kept it real with you so keep it real with me
See there ain't no love if you don't trust me
Somebody told you, somebody saw me
Said that I've been messin' round, runnin' the street
Kept it real with you so keep it real with me
See there ain't no love if you don't trust me
Somebody told you, somebody saw me
Turn the lights down
Turn the lights down
Turn the lights down
