

# Here With Me

Jennifer Paige

In my head  
I have dreams  
I have visions of many things  
Questions longings in my mind Pictures fill my head  
I feel so trapped instead  
But trapped doesn't seem so bad  
'Cause you are here It doesn't mean anything  
Without you here with me  
And I can try to justify  
But I still need you here with me In my heart I had hope  
Built on dreams I'll never know  
Answers to love left behind  
Visions filled my head I felt so trapped instead  
But trapped didn't seem so bad  
'Cause you were near It doesn't mean anything  
Without you here with me  
And I can try to justify  
But I still need you here with me I can't do anything without you  
You give me strength to do anything  
And I can't be everything I try to  
You saved me from the everything I couldn't be It doesn't mean anything  
Without you here with me  
And I can try to justify  
But I still need you here with me Need you here with me  
I need you here with me
