

# That Girl (Radio Edit)

NLT

I ain't never met a girl before  
That came on in and shook up my life  
Someone who'd make me give up everything  
Go from broke and fall in love  
And baby girl that's something

Oh, my heart, my time, it's nothing  
Girl, oh, her kiss, just can't do with out it  
Oh, there's something 'bout the things you do  
Oh, and every time I think of you  
I get excited 'cause you're my girl

(That girl)  
Just the way I like it, gotta have it just the way  
(That girl)  
Keep me open, I be hopin' that I'm gonna be with  
(That girl)  
I can't believe  
(That girl)  
She's killing me, crazy, sexy, cool baby, you that girl

Nothing 'bout this girl is typical  
Got body right out Vibe magazine  
And she's just so incredible  
She's the type of girl  
That you might search your whole life for

Oh, my heart, my time, it's nothing  
Girl, oh, her kiss, just can't do with out it  
Oh, there's something 'bout the things you do  
Oh, and every time I think of you  
I get excited 'cause you're my girl

(That girl)  
Just the way I like it, gotta have it just the way  
(That girl)  
Keep me open, I be hopin' that I'm gonna be with  
(That girl)  
I can't believe  
(That girl)

It's killing me, crazy, sexy, cool baby, you that girl

(That girl)

Just the way I like it, gotta have it just the way

(That girl)

Keep me open, I be hopin' that I'm gonna be with

(That girl)

I can't believe

(That girl)

It's killing me, crazy, sexy, cool

Baby, takes me high,

I just can't explain it, something's got me feeling her love

Baby, but even if I try

I could never shake it, ooh, my baby's got me in love

(That girl)

That girl, that girl, hey

(That girl)

That girl, that girl, hey

(That girl)

She knows how to do it, yeah, yeah

(That girl)

She knows how to do it

(That girl)

Just the way I like it, gotta have it just the way

(That girl)

Keep me open I be hopin' that I'm gonna be with that

(That girl)

I can't believe

(That girl)

It's killing me, crazy, sexy, cool baby, you that girl

That girl, that girl, hey

(That girl)

That girl, that girl, hey

(That girl)

That girl, that girl
