

# Morning Light

## Palaye Royale

We live for, we yearn for  
The things that we're born for  
Yesterday's today's tomorrow We die for, we try for  
The things that we long for  
If needed beg steal and we'll borrow The morning light will lead you  
No weapon will defeat you Winter comes, skies to grey  
It's the same old same old everyday  
And where it starts, is where it ends  
I feel your pain  
So run the lights, catch a plane  
I know you just wanna win  
You see my friend  
Life is just a game The meaning, the reason  
The set backs, the season  
Come and go neglect the sorrow The shadows, the angels  
That walk through this strange world  
Knowing which one I will follow The morning light will lead you  
No weapon will defeat you Winter comes, skies to grey  
It's the same old same old everyday  
And where it starts, is where it ends  
I feel your pain  
So run the lights, catch a plane  
I know you just wanna win  
You see my friend  
Life is just a game Oh, let me live it now  
Oh, let me feel it now  
Oh, let me break it down  
I know, I see, that this ain't the end for me Oh, try to stop me now  
Oh, I will hit the ground  
Oh, I will turn around  
I do believe that this world ain't done with me Winter comes, skies to grey  
It's the same old same old everyday  
And where it starts, is where it ends  
I feel your pain  
So run the lights, catch a plane  
I know you just wanna win  
You see my friend  
Life is just a game
