

# Now That I Know

Shannon McNally

Now that I know what I know, I know I'll always love you  
Now that I see what I see I see it will always be  
Now that I got what I got I know I had it all alongMidweek morning time I wake up next to you  
With your head on my pillow and your arms around me,  
Oh baby it's so warm  
Still I lay here thinking about the way I thought it would be  
But all my planning asideNow that I know what I know, I know I'll always love you  
Now that I see what I see I see it will always be  
Now that I got what I got I know I had it all alongAnd I'll be your ground if you'll be my muse I can tie on to  
You follow me and I'll follow you  
Yes I'll follow you  
Still I lay here thinking 'bout the way I used to be  
And man baby with you I've come a long wayNow that I know what I know, I know I'll always love you  
Now that I see what I see I see it will always be  
Now that I got what I got I know I had it all alongAnd it's all a trick till you figure it out  
I couldn't hear myself thinking till I started to shoutNow that I know what I know, I know I'll always love you  
Now that I see what I see I see it will always be  
Now that I got what I got I know I had it all alongNow that I know what I know, I know I'll always love you  
Now that I see what I see I see it will always be  
Now that I got what I got I know I had it all along
