Our Song

The Xx

All I have, I will give to you
And at times when no one wants to
All I have, I will give to you
And at times when no one wants to
And there's no one else
All I've done, you've done too
You just walk through

Well I know all the words
You know I know you're hurt
I want to mend your heart
Why don't you tell me from the start
You know I know you're hurt
I want to meant your heart
And there's no one else
You just walk through
