

Everything I Touch

Stabbing Westward

The more I feel, the more I die
Nothing to give, nothing inside Everything I touch I break
Everything I touch I break
Everything I touch I break I scratch and tear until it bleeds
I do not want, I only need
I only need, I only need Everything I touch I break
Everything I touch I break
Everything I touch I break Everything I touch I break
Everything I touch I break
Everything I touch I break
