Marlena

John Rowles

I never lost my head but I think I'll just go home now
Yesterday I felt the same I guess I'll just believe her
Just leave and you'll see
O I'll figure out what you say to me 'cause I don't want to believe it

Tell me why it's all the same and I keep going through it
I never understood why you never would see the things I'd want to see too
Oi! never understood why
