Polyesterday

Gus Gus

I am the paper
Above the skyscraper
They tried to rape her
She couldn't reach higherI am the paper
Above the skyscraper
They tried to rape her
She couldn't reach higherPolyesterday
Found another way
Polly said today
She'd find another way tomorrowIn public, public
They said she was sick
In Buick, Buick
Driving naked for an hour, stark nakedPolyesterday
Found another way
Polyesterday
Synthetic one way or the otherPolyesterday
Found another way
Polly said today
She'd find another way tomorrowHer people didn't know
Her family didn't know
