

# A Stillness

## The Naked And Famous

Gallantly rise  
Strike spears of light  
Inside my eyes  
Over the fields  
Where we believed  
Our love had died Still  
Still  
Be still Roses of white  
Blushing with life  
Don't pass me by  
Whisper the needs  
Quiet release  
Fever in me Head cases full  
Rise out of you  
Breaking in two  
Let there be light  
Golden inside  
Dark was the night Still  
Still  
Be still
