Song To Self

Travis

Singing a song to myself
I'm singing a song to myself
i belive life and love sometimes dream
becaue they dot allways come truthPictures in your mind
Out of focus and unkind
Picture me, I picture youOutside the sun is shining
At the back of your mind there's a memory
By the time you hear this I'll be goneI'm singing a song to myself
'Cause I don't belong any longer
Just making it up in my head
This feeling is strong and getting strongerDo you see the light?
Tell me you see the light
Just making it up in my head
'Cause I need someone to sing along withPictures in your heart
Out of focus torn apart
Picture me, I picture youOutside the moon is shining
At the back of your mind there's a memory
By the time you hear this I'll be goneI'm singing a song to myself
'Cause I don't belong any longer
Just making it up in my head
This feeling is strong and getting strongerDo you see the light?
Tell me you see the light
Just making it up in my head
I need someone to sing along with, along with
Sing along with, yeahI'm singing a song to myself
'Cause I don't belong any longer
Just making it up in my head
This feeling is strong and getting strongerDo you see the light?
Tell me you see the light
Just making it up in my head
I need someone to sing along withI'm singing a song to myself
