

Love 'round the World (Hope)

Ryan Cassata

[Verse 1]

Blood and Iron
Money and Oil
Greed and ignorance
We will fall
Paths of victory
The town went down
Destroyed the city
Revenge they call
War is brewing
Bring them home
Bring us together
Love we hold

[Chorus]

Put down power
Put down rage
Put down ignorance
Kill hate!
We're going 'round the world, around the world
Peace around the world, around the world
We're going 'round the world, around the world
Love around the world, around the world

[Verse 2]

Segregated my difference
Class by race
Split up my religion
Set apart by hate
Some use violence
Or death by words
Children are crying
People get hurt
Judged by beauty
Or intelligence
Judged by anything
But the soul within

[Chorus]

Put down power
Put down rage
Put down ignorance
Kill hate!

We're going 'round the world, around the world
Peace around the world, around the world
We're going 'round the world, around the world
Love around the world, around the world

[Bridge]

If this ain't hope, I don't what is
The war's been drawn, stop your crying
(You gotta give 'em hope)
If this ain't hope, I don't what is
The war's been drawn, stop your crying
(You gotta give 'em hope)
If this ain't hope, I don't what is
The war's been drawn, stop your crying
(You gotta give 'em hope)
If this ain't hope, I don't what is
The war's been drawn, stop your crying
(You gotta give 'em hope)

[Chorus]

Put down power
Put down rage
Put down ignorance
Kill hate!
We're going 'round the world, around the world
Peace around the world, around the world
We're going 'round the world, around the world
Love around the world, around the world
