

One More Hangover Day (Warren's Song, Pt. 7)

Bracket

Distance you far away from me
Your daylight's not my cup of teaI can't pretend that I have time to spend
 My medication takes the pain away
I'm sleeping through one more hangover dayInside my clouded memory
 I'm underneath my apple treeI can't pretend that I have time to spend
 My medication takes the pain away
I'm sleeping through one more hangover dayGive me an antidote for my heart
 So everyone can have their share
 Everyone can share (3x)
 Does anyone careDistance you far away from me
Your daylight's not my cup of teaI can't pretend that I have time to spend
 My medication takes the pain away
I'm sleeping through one more hangover day
