

Midnight Dreamer

Mary Byrne

All alone through the countryside
Clouds in my brain, vision in my eyes
Thoughts are on the wall, like oceans on the sand
Midnight dreamer, take me if you can
You can't deny, it seems so easy to do
But women trade in black and now she's sinning on you
Givin' you my heart, there's nothin' you can do
Midnight lover, I'm in love with you

She's my midnight lover, wild and fancy free
Standin' in the shadows in the palace of my dreams
You're a pretty thing, like fire from the sun
You've got to catch her while she's shinin' before the mornin' comes
Could this be a dream?
Dream on, dream on, dream on
