

# Been Through

## Dead Prez Presents M-1

Nothing's working, nothing's working  
Nothing's working, nothing's working

Do you feel alright?

You shouldn't

Nothing's working, nothing's working  
Nothing's working, nothing's working  
Nothing's working, nothing's working

Do you feel alright?

You shouldn't

Nothing's working, nothing's working

You're getting older

You're getting older

You're getting older

Now

You're getting older

You're getting older

You're getting older

Now

I am understanding but I can't believe what you've been through

I am understanding but I can't believe what you've been through

I am understanding but I can't believe what you've been through

I am understanding but I can't believe what you've been through

Nothing's working, nothing's working

Nothing's working, nothing's working

Do you feel alright?

You shouldn't

Nothing's working, nothing's working

Nothing's working, nothing's working

Nothing's working, nothing's working

Do you feel alright?

You shouldn't

Nothing's working, nothing's working

You're getting older

You're getting older

You're getting older

Now

You're getting older

You're getting older

You're getting older

Now

I am understanding but I can't believe what you've been through  
I am understanding but I can't believe what you've been through  
I am understanding but I can't believe what you've been through  
I am understanding but I can't believe what you've been through  
I am understanding but I can't believe what you've been through  
I am understanding but I can't believe what you've been through  
I am understanding but I can't believe what you've been through  
I am understanding but I can't believe what you've been through
