Came On Lion

Sarah Harmer

Closer than a girl can get to trouble
If she hasn't yet got in itWell, it started out like any show
Up from the dark to the light's warm glow
Did you hear that dedication
When I came up in out on stage?And you came on lion, all courageous
And I stepped up to your cage
Just to see if we would go
I crossed the bridge, I thought you'd knowNow my sun is up already hot
With two rays on, two straying thoughts
But each one warm to make me glow
Or burn me if I'm not carefulIt's not hard, it's too easy
I get it and I get to be
Closer than a girl can get to trouble
If she hasn't yet got in itSo now can I step lightly back between
Where you are and where I've been?
Back into that thing we do
Where it's me and it's just youAnd it's not hard, it's too easy
I get it and I get to be
Closer than a girl can get to trouble
Without getting in it
