Motivated

NF

I've been, I've been doing this a long time
I mean over half my life
It's awesome for me to be able to put out music that people will actually hear
Especially when you put this much time into something that you love, something that you have a passion for
That's motivation

Ahh, I'm motivated (motivated)
Motivated (motivated)
Motivated (motivated)
Motivated, ahh

When I first started
Never knew if they will listen
But when I write, I produce passion, that's Mel Gibson
If music is a disease, I promise I'm infected
I dream on different levels of dreams
Inception
And these beats are my playground, let the words play
You ain't catch it, that's word play
Now you're stuck on the word play
I'm all business, no suit on, but that's okay
I will K.O. you, if you come in my work space
And don't you ever try to tell me I lack passion
I'm a stand up guy
I promise you ain't laughing
These rappers are slowing the game down
Bad traffic
And how you want put me in a category of wack rapping
Listen
I'm Hulk
I transform and I smash rap
You sipping on syrup that doesn't mean you a sick rapper
See what it means is you gon' probably get sick after
You don't like that I'm blunt
Or is it the fact that I smoke past ya

Take your best shot
I ain't going nowhere, nowhere

I put work in this music

You think I'm making this up
If the songs ain't sharp, trust me they ain't making the cut
You don't like it? I'm no teacher, but you'll learn to adjust
I'm my own worst critic, so critics step your hate game up
I'm a different breed of artist, I know how to survive
You come into my lane, you better know how to drive
And I suggest you buckle up if you gon' come on this ride
No Johnny Cash but some of y'all are walking the line
But you wrong though
Y'all look curious, Heath Ledger type of questions
Like "Why so serious?"
And you want watered down lyrics?
Well, I don't carry 'em
I dig holes for these tracks and then I slaughter and bury 'em
The motivation I got is on a whole different level
I treat these line like court case, I don't wanna settle
My words are like bullets and they're aiming at you
And I ain't talking Switchfoot when I dare you to move

And when it comes to punches, you know I'mma land mine
No I said I'm a land mine
Don't step on me or you get bombed sky high
And I don't mean secrets when I say to keep it in mind
Now I'm ill with the words, too sick
They say I rap hungry, well that's cause I'm starvin' Diesel
ThatÂ´s why they calling me Riddick
Cause the look in my eyes is different

Y'all ain't ready, rewind that back
