

I Was Blind

B.B. King

I was blind and could not see
That you were gettin' away from me
But now I know that you are gone I live by the night
And slumbers through the day
Because life don't seem worth livin' anyway If I only see
Life won't be so miserable to me
Only one I love wanna leave me in misery Oh, now I haven't been true
But this one I want to be my wife
So baby please, please think of you and me If I could only see
Life wouldn't be so miserable to me
Why would the one I love want to leave me in misery? Oh, haven't been true all of my life
Ah, but this one I want, want her to be my wife
So baby please, baby please think of, of you and me
