

# Down With the Ship

## Seven Day Jesus

I look at the TV  
Everybody's going crazy right in front of me  
From the talk show to the cop show to the news  
Now I choose my poison with my own remote control  
There's no control  
And everyone I see is sinking  
Getting deeper in the water they don't know  
The ship's about to go  
But I don't wanna go  
Now I see this world was never meant to be  
My true affection  
So as it sinks, I never fear for You are still  
You're my protection  
I'm never gonna go down with the ship  
I say, You and me could find a better way  
To get to the shore  
I don't care what anyone might say  
Down with the ship  
I say, You and me could find a better way  
To get to the shore  
I don't care what anyone might say, hey, yeah  
'Cause I don't wanna go  
Sometimes up and I'm sometimes down  
But I've got a lifesaver  
And I'm never gonna drown  
So as it sinks, I never fear for You are still  
You're my protection  
I'm never gonna go down with the ship  
I say, You and me could find a better way  
To get to the shore  
I don't care what anyone might say  
Down with the ship  
I say, You and me could find a better way  
To get to the shore  
I don't care what anyone might say, hey, yeah  
'Cause I don't wanna go
