

# Outta My Face

[Reece Mastin](#)

Outta my, get outta my face  
Outta my, oh, get outta my face  
Outta my, get outta my face  
Outta my, oh, get outta my face  
You don't belong here  
You don't belong here  
And there's one thing you should know  
Bend or break the pressures on my shoulders  
I can see the violence on the TV  
But I know that's something that never ever will be  
So get outta my, get outta my face  
Outta my, oh, get outta my face  
Outta my, get outta my face  
Outta my, oh, get outta my face  
  
You don't belong here  
You don't belong here  
And someday your ego will let you be  
Maybe then this world will let you breathe  
Righteous and visions have always been free  
And fire brimstone is all you're gonna get from me  
Outta my, get outta my face  
Outta my, oh, get outta my face  
Outta my, get outta my face  
Outta my, oh, get outta my face  
You don't belong here  
No, you don't belong here, no  
You don't belong here  
No, you don't belong in my face, my face
