Lullaby of Love

Johnny Mathis

Do you still remember when?
We were young forever then
Never dreamed it would never end
Our lullaby of loveScattered pictures every where
Of a special love affair
Open letters that made us care
This lullaby of our loveWe used to laugh every day at each mistake
Now we're no longer that way
We've had our day
How can we relive our love?
Will the memory be enough?
This is all I have left to give
This lullaby of our loveWill you remember if I sing?
This lullaby of our love
